

Access global B2B rates through Expedia Partner Solutions

Maximize your revenue with Expedia Group's preferred property relationships

Expedia Group's optimized distribution program allows lodging suppliers to effectively manage the distribution of B2B rates. The program allows properties to capitalize on our broad reach, as well as our industry leading tools, to help them better control how their rates are sold.

As an EPS partner, you gain access to those B2B rates when they are added to our supply, helping you to maximize profits and provide an improved traveler shopping experience.

Here's how it works:

You will automatically gain access to a range of B2B rates through our EPS supply

Work with your Account Manager to implement the best rates for you and your travelers

You will continue to receive new B2B rates automatically as more properties join the program

Please reach out to your Account Manager to discuss your current utilization of B2B rates across a variety of suppliers, and opportunities to optimize your usage.
